Tom,

Thanks for attending the mine inspections in San Juan County last week.

This email is to request concurrence from the USFS for the Utah Division of Oil, Gas and Mining to process final bond release for the Energy Fuels Resources (USA) Pine Ridge mine. An onsite inspection conducted on 7/28/2015 indicated that the disturbance has been fully reclaimed and revegetated to meet the standards of R647-3-109.

If you have any questions, please let me know.

Thanks again,

--

Mike Bradley

Environmental Scientist III / Reclamation Specialist

Utah Division of Oil, Gas and Mining

Per our inspection of the Pine Ridge portal reclamation on July 28, 2015 we concur with the bond release.

Attached are photos that document the inspection. Soils are stable and vegetation is established. The access road is closed and vegetation is reestablishing.
